

**FRANKLIN COUNTY FIELD DAYS, INC.**  
**FARM STOCK TRACTOR PULL RULES**  
**Contact Pierre Parent -802-933-4234**

FARM STOCK TRACTORS:

1. Age: Driver must be 16 years of age or older. Those under 18 years of age must have written parental / guardian permission.
2. All tractors must be stock-blocked for that series tractor. Engine must be of original type or factory replacement. Original style hood and grill must be in place.
3. Turbochargers, intercoolers, superchargers, torque converters, automatic shifts, etc. are permitted provided such is original equipment for that series.
4. Drawbar height for classes under 9,000 pounds will be a maximum of 19 “, and for classes over 9,000 pounds will be a maximum of 21”. Minimum length of drawbar is 22” from centerline of axle housing and a maximum of 36” from Centerline of axle housing.
5. Drivers must provide their own hitching device or clevis with minimum 3” diameter opening for hooking. The third link of three-point hitches will not be used in any way to stabilize the drawbar. There must be a dead man zone of 18” in height and 6” wide from top of the drawbar. PTO must be accessible for dyno test.
6. All weight must be safely secured to the tractor and not to interfere with hitch. Weight is not to exceed 24” forward of the front most portion of the tractor. Any ballast or external parts lost while hooked to the sled will be cause for disqualification. No weights may be moved from one tractor to another competing in the same class during that class. No portion of tractor may interfere with sled or sled hitch during a pull. Hitch needs to be visible for hitching & unhitching.
7. All tractors with rubber tires are permitted. No sharpened or cut tires. Tire studs or chains are NOT permitted. Dual tires are required on 2WD tractors in 4WD class as long as duals are held together by at least 4 connectors. In weight classes of 18,000 lbs or greater, tractor & driver cannot weight less than 1000 lbs of the maximum weight of that class. (i.e. in 18,000 lbs class, tractor & driver cannot weight less than 17,000 lbs)
8. All exhausts must either: (a) discharge vertically upward with a minimum 18” straight pipe or muffler in working condition or (b) discharge through a factory, underslung exhaust system in working condition.
9. Stabilizer bars or wheelie bars are required and must meet VTPA specifications.
10. A dead man throttle is not required; however, drivers are advised that one can be easily rigged using a rubber shock strap.

11. All tractors weighed at event.

12. Engine RPMs not to exceed 2600 RPM and governor must have stop. Tractors In weight classes up to and including 10,000 lbs. will be allowed a maximum of 150hp. Tractors in weight classes from 11,500 lbs. up to and including 16,500 lbs. will be allowed a maximum of 200hp. This RPM and horsepower limit will be tested and strictly enforced. Violators will be disqualified if checked after pull and do not pass.

13. All stock farm tractors will be required to have a stock air filter system including filters.

14. All stock farm tractors will be required to be shut off by factory ignition or throttle shut off. (Explanation: NO stalling of engines while in gear for shut off.) Will be checked during inspection or at discretion of tech officials.

15. It is recommended a tractor have at least a fully charged 2 lb. fire extinguisher on board in reach of operator. A functional gauge on the fire extinguisher is required.

16. Must have rockshaft and housing or OEM top cover, working hydraulics unless tractor came from factory without. Must have working PTO and stock drawbar used for hitching device.

17. Weight classes for Farm Stock will be 8,000 lbs, 10,000 lbs, 12,000 lbs, 14,000 lbs, 16,000 lbs, 18,000 lbs.

18. Water injection is NOT permitted.

19. No mixing of classes until 18,000 lbs. classes.

20. 4 wheel drive classes: 16,000 lbs, 18,000 lbs, 20,000 lbs, 22,000 lbs, 25,000 lbs 30,000 lbs.

21. Any tractor that does not meet these rules will be put in the open class according to weight.
